EDUCATION AND CERTIFICATIONS

BS in Computer Science

Mariano Marcos State University - Batac City, Ilocos Norte
2021-2025

Google Business Intelligence Specialization Certificate

<https://www.coursera.org/account/accomplishments/specialization/certificate/B4NTNOSXTLAS>
January 2026

WORK EXPERIENCE

Mariano Marcos State University ITC

July 2024 - August 2024

Software Developer | Intern

- Assisted in development of Content Management System for the University Library.
- Setting up the Code Environment and database using Linux Servers and Docker.
- Designed the Frontend using Vue.js 3
- Helped in building the backend using Laravel

EXPERIENCE PROJECTS

End-to-End Data Analysis | https://github.com/jeromeybz/EndToEnd_DA

2026

- Filtering, and transforming specific business metrics from a normalized SQL Data Warehouse for optimized Power BI visualization
- Re-architected a Snowflake schema into a simplified Star Schema by aggregating sub-tables to enhance speed
- Created Power BI dashboard to visualize data and support business decision-making.

Sentiment Analysis |

2024-2025

Data Analysis | Machine learning | Researcher

- Developed an supervised experimental NLP training method for Sentiment Analysis using different machine learning models
- Gathered datasets in public, performed data cleaning, using Parts-of Speech tags as a feature extraction.
- Transformed the data into a categorical for experimental training
- Trained the model on categorical data using n-positions and POS combinations, with accuracy as the metric

Google BI Certification | <https://github.com/jeromeybz/Google-Fibr-Cyclistic-Analysis>

2026

- Executed SQL queries in BigQuery to extract different large public datasets
- Transformed specific data columns to improve clarity and provide better context for analysis.
- Created interactive Tableau dashboards to make data easier to explore and understand.

TECHNICAL SKILLS

SQL, Excel, Python, Visualization, Machine Learning, Natural Language Processing (NLP)

TOOLS

Microsoft 365, Power Query, SQL Server Management Studio, MySQL Workbench, BigQuery, Power BI, Tableau, Git

SOFT SKILLS

Communication, Problem Solving, Time management

ADDITIONAL TOOLS & SKILLS

HTML, CSS, Vuejs3, Tailwind, PHP, Laravel, Streamlit,

ADDITIONAL PROJECTS

Enhancement Excel projects	
Data analysis	2025
• Finished project activities from public available datasets online. • Used different formulas to clean and analyze the given data. • Used pivot tables to visualize trends and performance. • Visualizing the data using the pivot table into charts.	
Power BI project	
Data analysis	2025
• Finished end-to-end Data analysis dashboards using public available datasets. • Performed data cleaning using power query and using simple DAX for measure and analyze the data.	
AttenDash	2024
Data analysis Web Development	
• Created a dummy data for employees and their attendance date time • Cleaned the data using excel and python • Created a simple Dashboard Web Application using Web Python framework called Streamlit
